**Item 2.02. Results of Operations and Financial Condition.**

On November 7, 2024, Brighthouse Financial, Inc. (“Brighthouse Financial” or the “Company”) issued a financial supplement for the quarter ended September 30, 2024, a copy of which was attached as Exhibit 99.2 to the Current Report on Form 8-K furnished to the U.S. Securities and Exchange Commission on November 7, 2024 (the “Original Form 8-K”). Brighthouse Financial is furnishing this Amendment No. 1 on Form 8-K/A solely for the purpose of providing an updated copy of the financial supplement to reflect that on November 8, 2024, the Company entered into a reinsurance transaction with a third party to reinsure a legacy block of its fixed and payout annuities (the “Reinsurance Transaction”), which is effective as of September 30, 2024 and resulted in an increase to the Company’s estimated combined risk-based capital (“RBC”) ratio as of September 30, 2024 from between 365% and 385%, as reported in the Original Form 8-K, to between 400% and 420%. Accordingly, two references in the financial supplement to the estimated combined RBC ratio as of September 30, 2024 on pages 1 and 22 have been updated from “365%-385%” to “400%-420%.” No other changes have been made to the Original Form 8-K or the financial supplement furnished therewith.

The updated financial supplement is attached hereto as Exhibit 99.1 and incorporated herein by reference.

**Item 7.01. Regulation FD Disclosure.**

During its earnings call for the quarter ended September 30, 2024, which was held on the morning of November 8, 2024, the Company discussed, among other things, the Reinsurance Transaction. The Company issued a news release later that same day announcing its entry into the Reinsurance Transaction. A copy of the news release is attached hereto as Exhibit 99.2 and is incorporated herein by reference.

In connection with such earnings call, Brighthouse Financial prepared a presentation for use with investors and other members of the investment community. The presentation contained two references to the Company’s estimated combined RBC ratio as of September 30, 2024 on slides 3 and 8 of “between 365% and 385%,” both of which have been updated to “between 400% and 420%,” as described in Item 2.02 above. The updated presentation is available on the Brighthouse Financial investor relations website at <http://investor.brighthousefinancial.com>.

Brighthouse Financial routinely uses its investor relations website to provide presentations, press releases, its insurance subsidiaries’ statutory filings, and other information that may be deemed material to investors. Accordingly, the Company encourages investors and others interested in the Company to review the information that it shares at <http://investor.brighthousefinancial.com>. All references to <http://investor.brighthousefinancial.com> are inactive textual references only, and the information contained on such website is not incorporated by reference into this Current Report on Form 8-K/A.

In accordance with General Instruction B.2 of Form 8-K, the information in Items 2.02, 7.01 and Exhibits 99.1 and 99.2 listed in Item 9.01 of this Current Report on Form 8-K/A shall not be deemed “filed” for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liability of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.

## Note Regarding Forward-Looking Statements

This financial supplement and other oral or written statements that we make from time to time may contain information that includes or is based upon forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve substantial risks and uncertainties. We have tried, wherever possible, to identify such statements using words such as “anticipate,” “estimate,” “expect,” “project,” “may,” “will,” “could,” “intend,” “goal,” “target,” “guidance,” “forecast,” “preliminary,” “objective,” “continue,” “aim,” “plan,” “believe” and other words and terms of similar meaning, or that are tied to future periods, in connection with a discussion of future operating or financial performance. In particular, these include, without limitation, statements relating to future actions, prospective services or products, financial projections, future performance or results of current and anticipated services or products, sales efforts, expenses, the outcome of contingencies such as legal proceedings, as well as trends in operating and financial results.

Any or all forward-looking statements may turn out to be wrong. They can be affected by inaccurate assumptions or by known or unknown risks and uncertainties. Many such factors will be important in determining the actual future results of Brighthouse Financial. These statements are based on current expectations and the current economic environment and involve a number of risks and uncertainties that are difficult to predict. These statements are not guarantees of future performance. Actual results could differ materially from those expressed or implied in the forward-looking statements due to a variety of known and unknown risks, uncertainties and other factors. Although it is not possible to identify all of these risks and factors, they include, among others: differences between actual experience and actuarial assumptions and the effectiveness of our actuarial models; higher risk management costs and exposure to increased market risk due to guarantees within certain of our products; the effectiveness of our variable annuity exposure risk management strategy and the impacts of such strategy on volatility in our profitability measures and the negative effects on our statutory capital; material differences between actual outcomes and the sensitivities calculated under certain scenarios that we may utilize in connection with our variable annuity risk management strategies; the impact of interest rates on our future ULSP policyholder obligations and net income volatility; the potential material adverse effect of changes in accounting standards, practices or policies applicable to us, including changes in the accounting for long-duration contracts; loss of business and other negative impacts resulting from a downgrade or a potential downgrade in our financial strength or credit ratings; the availability of reinsurance and the ability of the counterparties to our reinsurance or indemnification arrangements to perform their obligations thereunder; heightened competition, including with respect to service, product features, scale, price, actual or perceived financial strength, claims-paying ratings, credit ratings, e-business capabilities and name recognition; our ability to market and distribute our products through distribution channels; any failure of third parties to provide services we need, any failure of the practices and procedures of such third parties and any inability to obtain information or assistance we need from third parties; the ability of our subsidiaries to pay dividends to us, and our ability to pay dividends to our shareholders and repurchase our common stock; the risks associated with climate change; the adverse impact of public health crises, extreme mortality events or similar occurrences on our business and the economy in general; the impact of adverse capital and credit market conditions, including with respect to our ability to meet liquidity needs and access capital; the impact of economic conditions in the capital markets and the U.S. and global economy, as well as geopolitical events, military actions or catastrophic events, on our profitability measures as well as our investment portfolio, including on realized and unrealized losses and impairments, net investment spread and net investment income; the financial risks that our investment portfolio is subject to, including credit risk, interest rate risk, inflation risk, market valuation risk, liquidity risk, real estate risk, derivatives risk, and other factors outside our control; the impact of changes in regulation and in supervisory and enforcement policies or interpretations thereof on our insurance business or other operations; the potential material negative tax impact of potential future tax legislation that could make some of our products less attractive to consumers or increase our tax liability; the effectiveness of our policies, procedures and processes in managing risk; the loss or disclosure of confidential information, damage to our reputation and impairment of our ability to conduct business effectively as a result of any failure in cyber- or other information security systems; whether all or any portion of the tax consequences of our separation from MetLife, Inc. are not as expected, leading to material additional taxes or material adverse consequences to tax attributes that impact us; and other factors described from time to time in documents that we file with the U.S. Securities and Exchange Commission (the “SEC”).

For the reasons described above, we caution you against relying on any forward-looking statements, which should also be read in conjunction with the other cautionary statements included and the risks, uncertainties and other factors identified in our Annual Report on Form 10-K for the year ended December 31, 2023, particularly in the sections entitled “Risk Factors” and “Quantitative and Qualitative Disclosures About Market Risk,” as well as in our other subsequent filings with the SEC. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update or revise any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events, except as otherwise may be required by law.

## Non-GAAP and Other Financial Disclosures

Our definitions of non-GAAP and other financial measures may differ from those used by other companies.

### Non-GAAP Financial Disclosures

We present certain measures of our performance that are not calculated in accordance with GAAP. We believe that these non-GAAP financial measures enhance the understanding of our performance by the investor community by highlighting the results of operations and the underlying profitability drivers of our business.

The following non-GAAP financial measures should not be viewed as substitutes for the most directly comparable financial measures calculated in accordance with GAAP:

<u>Non-GAAP financial measures:</u>	<u>Most directly comparable GAAP financial measures:</u>
(i) adjusted earnings	(i) net income (loss) available to shareholders (1)
(ii) adjusted earnings, less notable items	(ii) net income (loss) available to shareholders (1)
(iii) adjusted revenues	(iii) revenues
(iv) adjusted expenses	(iv) expenses
(v) adjusted earnings per common share	(v) earnings per common share, diluted (1)
(vi) adjusted earnings per common share, less notable items	(vi) earnings per common share, diluted (1)
(vii) adjusted return on common equity	(vii) return on common equity (2)
(viii) adjusted return on common equity, less notable items	(viii) return on common equity (2)
(ix) adjusted net investment income	(ix) net investment income
(x) adjusted net investment income yield	(x) net investment income yield

(1) Brighthouse uses net income (loss) available to shareholders to refer to net income (loss) available to Brighthouse Financial, Inc.'s common shareholders, and earnings per common share, diluted to refer to net income (loss) available to shareholders per common share.

(2) Brighthouse uses return on common equity to refer to return on Brighthouse Financial, Inc.'s common stockholders' equity.

Reconciliations to the most directly comparable historical GAAP measures are included for those measures which are presented herein. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are not accessible on a forward-looking basis because we believe it is not possible without unreasonable efforts to provide other than a range of net investment gains and losses and net derivative gains and losses, which can fluctuate significantly within or outside the range and from period to period and may have a material impact on net income (loss) available to shareholders.

### Adjusted Earnings, Adjusted Revenues and Adjusted Expenses

Adjusted earnings is a financial measure used by management to evaluate performance and facilitate comparisons to industry results. This financial measure, which may be positive or negative, focuses on our primary businesses by excluding the impact of market volatility, which could distort trends. The company uses the term "adjusted loss" throughout this financial supplement to refer to negative adjusted earnings values.

Adjusted earnings reflect adjusted revenues less (i) adjusted expenses, (ii) provision for income tax expense (benefit), (iii) net income (loss) attributable to noncontrolling interests and (iv) preferred stock dividends. Provided below are the adjustments to GAAP revenues and GAAP expenses used to calculate adjusted revenues and adjusted expenses, respectively.

## Non-GAAP and Other Financial Disclosures (Cont.)

The following are significant items excluded from total revenues in calculating the adjusted revenues component of adjusted earnings:

- Net investment gains (losses); and
- Net derivative gains (losses), excluding earned income and amortization of premium on derivatives that are hedges of investments or that are used to replicate certain investments, but do not qualify for hedge accounting treatment (“Investment Hedge Adjustments”).

The following are significant items excluded from total expenses in calculating the adjusted expenses component of adjusted earnings:

- Change in market risk benefits; and
- Change in fair value of the crediting rate on experience-rated contracts (“Market Value Adjustments”).

The provision for income tax related to adjusted earnings is calculated using the statutory tax rate of 21%, net of impacts related to the dividends received deduction, tax credits and current period non-recurring items.

Consistent with GAAP guidance for segment reporting, adjusted earnings is also our GAAP measure of segment performance.

### Adjusted Earnings per Common Share and Adjusted Return on Common Equity

Adjusted earnings per common share and adjusted return on common equity are measures used by management to evaluate the execution of our business strategy and align such strategy with our shareholders’ interests.

Adjusted earnings per common share is defined as adjusted earnings for the period divided by the weighted average number of fully diluted shares of common stock outstanding for the period. The weighted average common shares outstanding used to calculate adjusted earnings per share will differ from such shares used to calculate diluted net income (loss) available to shareholders per common share when the inclusion of dilutive shares has an anti-dilutive effect for one calculation but not for the other.

Adjusted return on common equity is defined as total annual adjusted earnings on a four quarter trailing basis, divided by the simple average of the most recent five quarters of total Brighthouse Financial, Inc.’s common stockholders’ equity, excluding AOCI.

### Adjusted Net Investment Income

Adjusted net investment income is used by management to measure our performance, and we believe it enhances the understanding of our investment portfolio results. Adjusted net investment income represents GAAP net investment income plus Investment Hedge Adjustments.

### Adjusted Net Investment Income Yield

Similar to adjusted net investment income, adjusted net investment income yield is used by management as a performance measure that we believe enhances the understanding of our investment portfolio results. Adjusted net investment income yield represents adjusted net investment income as a percentage of average quarterly asset carrying values. Asset carrying values exclude unrealized gains (losses), collateral received in connection with our securities lending program, freestanding derivative assets and collateral received from derivative counterparties. Investment fee and expense yields are calculated as a percentage of average quarterly asset estimated fair values. Asset estimated fair values exclude collateral received in connection with our securities lending program, freestanding derivative assets and collateral received from derivative counterparties.

## Non-GAAP and Other Financial Disclosures (Cont.)

### Other Financial Disclosures

#### Corporate Expenses

Corporate expenses includes functional department expenses, public company expenses, certain investment expenses, retirement funding and incentive compensation.

#### Notable Items

Certain of the non-GAAP measures described above may be presented further adjusted to exclude notable items. Notable items reflect the unfavorable (favorable) after-tax impact on our results of certain unanticipated items and events, as well as certain items and events that were anticipated. The presentation of notable items and non-GAAP measures, less notable items is intended to help investors better understand our results and to evaluate and forecast those results.

#### Book Value per Common Share and Book Value per Common Share, excluding AOCI

Brighthouse uses the term "book value" to refer to "Brighthouse Financial, Inc.'s common stockholders' equity, including AOCI." Book value per common share is defined as ending Brighthouse Financial, Inc.'s common stockholders' equity, including AOCI, divided by ending common shares outstanding. Book value per common share, excluding AOCI, is defined as ending Brighthouse Financial, Inc.'s common stockholders' equity, excluding AOCI, divided by ending common shares outstanding.

#### CTE70

CTE70 is defined as the amount of assets required to satisfy contract holder obligations across market environments in the average of the worst thirty percent of a set of capital market scenarios over the life of the contracts.

#### CTE98

CTE98 is defined as the amount of assets required to satisfy contract holder obligations across market environments in the average of the worst two percent of a set of capital market scenarios over the life of the contracts.

#### Holding Company

Holding company means, collectively, Brighthouse Financial, Inc., Brighthouse Holdings, LLC, and Brighthouse Services, LLC.

#### Holding Company Liquid Assets

Holding company liquid assets include liquid assets in Brighthouse Financial, Inc., Brighthouse Holdings, LLC, and Brighthouse Services, LLC. Liquid assets are comprised of cash and cash equivalents, short-term investments and publicly-traded securities, excluding assets that are pledged or otherwise committed. Assets pledged or otherwise committed include assets held in trust.

## Non-GAAP and Other Financial Disclosures (Cont.)

### Other Financial Disclosures (cont.)

#### Total Adjusted Capital

Total adjusted capital primarily consists of statutory capital and surplus, as well as the statutory asset valuation reserve. When referred to as “combined,” represents that of our insurance subsidiaries as a whole.

#### Sales

Life insurance sales consist of 100 percent of annualized new premium for term life, first-year paid premium for whole life, universal life, and variable universal life, and total paid premium for indexed universal life. We exclude company-sponsored internal exchanges, corporate-owned life insurance, bank-owned life insurance, and private placement variable universal life.

Annuity sales consist of 100 percent of direct statutory premiums, except for fixed index annuity sales, which represents 100 percent of gross sales on directly written business and the proportion of assumed gross sales under reinsurance agreements. Annuity sales exclude certain internal exchanges. These sales statistics do not correspond to revenues under GAAP, but are used as relevant measures of business activity.

#### Normalized Statutory Earnings (Loss)

Normalized statutory earnings (loss) is used by management to measure our insurance companies’ ability to pay future distributions and is reflective of whether our hedging program functions as intended. Normalized statutory earnings (loss) is calculated as statutory pre-tax net gain (loss) from operations adjusted for the favorable or unfavorable impacts of (i) net realized capital gains (losses) before capital gains tax (excluding gains (losses) and taxes transferred to the interest maintenance reserve), (ii) the change in total asset requirement at CTE98, net of the change in our variable annuity reserves, and (iii) pre-tax unrealized gains (losses) associated with our variable annuities and Shield hedging programs and other equity risk management strategies. Normalized statutory earnings (loss) may be further adjusted for certain unanticipated items that impact our results in order to help management and investors better understand, evaluate and forecast those results.

#### Risk-Based Capital Ratio

The risk-based capital ratio is a method of measuring an insurance company’s capital, taking into consideration its relative size and risk profile, in order to ensure compliance with minimum regulatory capital requirements set by the National Association of Insurance Commissioners. When referred to as “combined,” represents that of our insurance subsidiaries as a whole. The reporting of our combined risk-based capital ratio is not intended for the purpose of ranking any insurance company or for use in connection with any marketing, advertising or promotional activities.

## FOR IMMEDIATE RELEASE

### Brighthouse Financial Announces Completion of Reinsurance Transaction

**CHARLOTTE, NC, November 8, 2024** — Brighthouse Financial, Inc. ("Brighthouse Financial" or the "company") (Nasdaq: BHF) announced today that it has completed a reinsurance transaction with a third party to reinsure a legacy block of the company's fixed and payout annuities. The transaction was previously discussed on the company's earnings call for the quarter ended September 30, 2024, which was held on the morning of November 8, 2024.

"This transaction reflects our ongoing progress against several strategic initiatives designed to improve capital efficiency, unlock capital and return to our target combined risk-based capital, or RBC, ratio range in normal market conditions," said Eric Steigerwalt, president and CEO, Brighthouse Financial. "As a result of this transaction, our estimated combined RBC ratio as of the end of the third quarter increased to between 400% and 420%, which is within our target range of 400% to 450% in normal market conditions."
